

7.3 Intuitional Distinctiveness

7.3.1. Portray the performance of the Institution in one area distinctive to its priority and thrust

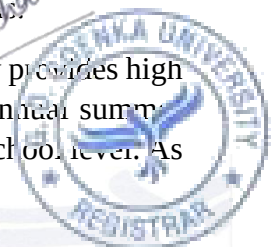

GD Goenka takes immense pride in its distinct and exceptional approach to education, offering a comprehensive learning experience from Pre-Nursery to PhD, all within a single integrated campus. This seamless continuity catering to students from their earliest years to advanced academic pursuits fosters a nurturing and supportive environment throughout their educational journey. Our dedication to excellence in education and genuine commitment to improving the lives of our students drive this vision. We firmly embrace globalisation and internationalisation, making them fundamental principles that underpin our educational philosophy.

Situated amidst scenic Aravalli hills on a sprawling 60-acre Education City, our campus provides world-class infrastructure and a stunning backdrop for our educational endeavours. The strategic location near Gurgaon and the National Capital Region offers students limitless opportunities. Our well-maintained grounds promote physical well-being alongside academic growth. State-of-the-art facilities, including Wi-Fi connectivity, well-equipped libraries, high-tech laboratories, and experienced academic staff, create a thriving environment for learning and exploration.

The GD Goenka group is actively engaged in a strategic initiative aimed at enhancing collaboration among its varied schools and educational institutions. This proactive approach offers several benefits, such as sharing resources and best practices, crucial for the holistic advancement of the entire conglomerate. By harnessing the collective knowledge, experiences, and resources from various entities within the organisation, GD Goenka University aims to stimulate innovation, elevate educational outcomes, and cultivate a unified educational environment. By fostering early exposure to university-level academics and professional mentorship, the institution nurtures a robust learning ecosystem that benefits both high school and university students. Our distinctiveness lies in our innovative initiatives that prepare high school students for future academic and professional success through comprehensive career counselling, collaborative course facilitation, faculty development programs, and a unique mentorship program.

Acknowledging the significance of informed career decisions, GD Goenka University provides personalized career counselling services for high school students. These sessions assist students in identifying their interests and strengths, aligning them with prospective career paths. Additionally, informational sessions are conducted to provide insights into university programs, admission procedures, and scholarship opportunities. The university also hosts sessions focusing on emerging fields and interdisciplinary opportunities, empowering high school students to make well-considered decisions about their future career paths.

Leveraging our unique position as a 'foundation to flight' campus, the University provides high school students with a taste of university-level education. In addition to our annual summer camp, our faculty co-facilitate STEM and Business Studies courses at the high school level. As

a first step, University faculty work closely with high school teachers to integrate advanced concepts and practical applications into the high school curriculum. Access to university resources such as laboratories, libraries, and online databases and working on real-world projects fosters experiential learning for high school students. These co-facilitated sessions prepare students for the academic rigour of university programs and instil a passion for disciplines.

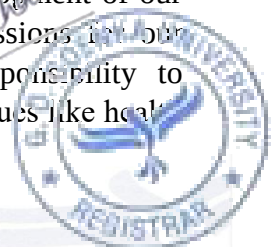

At GD Goenka, we are committed to the continuous professional development of all faculty members. Our school faculty development programs, conducted by university faculty, aim to enhance professional practice through workshops and seminars on innovative teaching methodologies, technology integration, and classroom management. Specialised sessions on the latest advancements in various subjects ensure that teachers stay updated with current knowledge and trends. These programs promote collaboration between university and school faculty, encouraging the exchange of ideas and best practices. They not only facilitate professional growth among educators but also underscore GD Goenka's commitment to excellence in education.

One of our distinctive programmes is the High School Mentorship Programme that pairs high school students with university faculty who provide personalised guidance and support. Students are matched with mentors based on their interests and career aspirations, ensuring tailored guidance. Mentors assist students with their academic challenges, offer study tips, and provide insights into university-level coursework and advice on career planning, internships, and industry trends, helping them make informed decisions about their future. The programme also focuses on personal development, including goal setting, time management, and reflection.

At GD Goenka University, students are equipped with interdisciplinary research methods and analytical skills essential for their careers. Our faculty members foster a research-driven environment that encourages intellectual growth. We maintain strong partnerships with industries and corporate entities to ensure our academic programs meet current market demands. Our curriculum includes industry-relevant courses, internships, and placements that provide practical experience and enhance employability. Guest lectures, workshops, and seminars expose our students to diverse perspectives and offer valuable insights into the professional world.

Our overarching mission at GD Goenka University is to provide students with a global perspective and equip them with essential skills for success in today's interconnected world. We are dedicated to establishing our legacy as an international educational institution that promotes seamless global connections and prepares students to thrive in diverse professional and cultural environments. Committed to excellence, we offer a transformative educational experience focused on research and development. Through strategic partnerships with renowned international universities, we facilitate internships and study abroad opportunities, allowing students to immerse themselves in global diversity. This initiative also attracts students worldwide to our campus, creating a vibrant, multicultural learning environment.

Beyond academic excellence, we place significant emphasis on holistic development of our students. We take immense pride in facilitating personalised mentoring sessions for our students. Community outreach programs inculcate a sense of social responsibility to community and the importance of giving back impacting society's pertinent issues like health care, sustainability, and environmental consciousness.

In summary, GD Goenka University stands out for its comprehensive educational offerings spanning from Pre-Nursery to PhD all within one campus. Our commitment to excellence, top-notch infrastructure, research-driven methodology, global perspectives, and holistic development ethos together mold individuals equipped to succeed in an evolving world. We take pride in our students' achievements and their significant contributions across diverse fields, making a positive impact on society and paving the way for a brighter and more inclusive future.

THE SUMMER CAMP 2021

Online courses to learn all things art
(Suitable for ages 3-15 yrs old)

Introduction

The opportunity to engage in fun, proactive and constructive learning

artGyan, in collaboration with the GD Goenka group of schools, is excited to present a 'Summer Camp' bringing quality teaching across a wide range of courses in performing and visual arts. With courses tailored for varying age groups from pre-schoolers, toddlers to young adults - these offer an exciting chance to interact with expert gurus from the comfort of our homes and provide children with the opportunity to engage in fun and constructive learning. Summer camp has never been more stimulating - with celebrated instructors introducing kids to Theatre, Dance, Music, Storytelling, Art and Craft and a host of interesting genres.

Salient Features:

- University Certified Courses
- 6 sessions across 2 weeks
- Group size upto 9 students
- Expert Gurus
- Tailor-made courses
- Book multiple courses
- Price - Rs 3000/course

Steps to book summer camp course on artgyan.com

- 1 Visit the Summer Camp page on www.artGYAN.com and sign in to your account
- 2 On the selected Course tile, click Book Now
- 3 Share the Learner Name, Age, Preferred Days and Time slots
- 4 Make the Payment
- 5 Repeat Step 2 to 4 for additional Course bookings

In case of any feedback or query, kindly contact us on

GUITAR 101

COURSE CONTENTS

INTRODUCTION

Guitar 101: In this course, we will build a foundational understanding of the instrument by introducing students to guitar fundamentals, basic chords & finger positions, strumming patterns, and picking techniques. Students will also be taught how to structure their practices in terms of daily routine, practice time, and practice method. By the end of the course, some will be able to play a basic 3 chord progression, and every student will have a core understanding of the instrument, some fundamental scales and chords, and how to structure their practices and continue their progress. These concepts will form the bedrock of their journey with the instrument for years on end. So, whether you're looking to play recreationally or be the next Guitar hero, join our summer camp today and get started on your journey!

Age Group: 7 years - 15 years

Prerequisites:

- Acoustic Guitar | Electric Guitar (electric guitar will need an amplifier)
- Guitar Pick
- A notebook and a pen to take notes

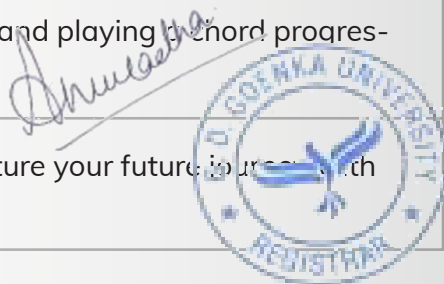

Course Outcomes:

On completion of the course, it is expected students will be able to:

- CO1: Understand the fundamentals of the Guitar
- CO2: Learn to play & pick the major scale starting from any note
- CO3: Learn some basic melodies using the C major scale
- CO4: Understand 3 basic chord shapes
- CO5: Play a basic strumming pattern
- CO6: Learn how to structure their practice routines

Some students will be able to play the 3 chords as a progression; used in songs such as Knocking on Heavens Door, Sweet Home Alabama and other classics.

Sessions	Session Topics
1	Guitar Fundamentals: How to hold the guitar, the notes of the six strings & how to tune a guitar
2	The 12 musical notes and how they are laid out on a guitar, how to fret notes & basic finger warm-up exercises
3	Learning the major scale on a guitar starting from any string. Learning a simple melody on the C major scale using 1 string and understanding how to play the same melody using multiple strings
4	The first basic chords: C Major, G Major, & D Major. Learning the finger positions and the notes that make up these chords.
5	Introduction to strumming patterns using the 3 basic chords and playing a 3 chord progression
6	Continuation of chord progression practice and how to structure your future lessons with the guitar

ACTING 101

COURSE CONTENTS

SESSIONS	SESSION TOPICS
1	SELF AND SURROUNDINGS We firmly believe that in order to engage with social reality and institutions around us, it is imperative that we focus on various aspects of our 'Self'. The first session attempts to dive into a world of self-exploration, covering one's dreams and aspirations through techniques of Theatre and Expressive Arts.
2	MY CIRCLES OF INFLUENCE We continue to explore 'Self' through understanding our blocks and challenges, as well as our circles of influence, as we explore how institutions like family, peer groups, and society impact our self-esteem.
3	UNDERSTANDING EMOTIONAL INTELLIGENCE In a world obsessed with IQ, grades, competition and marks, how important is it to be aware of our own emotions and vulnerabilities? Through this session, we will explore Emotional Intelligence and create avenues for emotional awareness
4	THE 'SELF' IN RELATION TO THE 'OTHER' Conflicts emerge as a result of differences in opinion and thoughts. As differences become accentuated, how do we inculcate empathy and understand someone? In this session, we will learn to harness the power of emotional intelligence to build consensus and mutual understanding.
5	RE-DEFINING FRONTIERS The boundaries set by our social institutions often tend to be rigid and stubborn. It is imperative that we understand what these barriers are and look at the ways in which they can be altered. This session will expand on our understanding of mutual co-existence and plurality
6	CO-CREATING SOCIAL CHANGE What is the change that you envisage? What is your responsibility in the larger social world? How will you find a voice? We end our course by attempting to answer these critical questions through this session.

INTRODUCTION

Acting 101: The curriculum in this unique course will focus on the Self and Social Change through Theatre and Expressive Arts, which equip us to overcome inhibitions, ideate freely, form opinions and be open to others' viewpoints. The course will help the participants understand and engage with issues of social justice and empowerment using techniques of theatre.

Age Group: 7 years - 15 years

Prerequisites: None.

Course Outcomes:

On completion of the course, it is expected a student would have gained:

- CO1: A deeper understanding of who I AM as we explore various aspects of 'Self', covering one's dreams and aspirations.
- CO2: Continue our explorations of Self, one's barriers and challenges and circles of influence
- CO3: Explore Emotional Intelligence and understand one's level of emotional awareness.
- CO4: Learn to harness the power of Emotional Intelligence to build consensus and mutual understanding.
- CO5: Understanding Boundaries and Safe Spaces.
- CO6: Identify the 'Social Change' one wants to see and one's responsibility in the larger social world.

FIND YOUR KEY

COURSE CONTENTS

Sessions	Session Topics
1	Piano Fundamentals: the musical alphabet, how the alphabet relates to staff notation and how to place fingers on the key-board
2	Understanding the Grand Staff and its unique relevance to Piano Music, understanding Left Hand and Right hand in relation to the staff
3	Learning how to play and read notes off the Treble Clef and playing with the Right Hand. Read and play a simple melody on the C position
4	Playing slightly more complex melodies on the Right hand and introduction to more Note Values
5	Introduction to the Left Hand and reading the C position off the Bass Clef
6	Introduction to Rests followed by the basics of playing melodies on the right hand and harmonies on the left hand. Finally, some basic guidelines on how to structure your journey with the Piano/Keyboard.

INTRODUCTION

Find Your Key: In this course, we will build a foundational understanding of the piano/keyboard, introducing students to the twelve notes in western music, which act as the twelve alphabets of the musical language. Students will be taught the basics of how to read Sheet Music, how to decipher rhythm, and achieve left/right hand and eye coordination. By the end of the course, students will be able to play the melody and the harmonies of more than one popular song and learn fundamental music practices and theory, allowing them to continue their practice even after the program is over. So come on over to our summer workshop and ‘find your key’!

Age Group: 7 years - 15 years

Prerequisites:

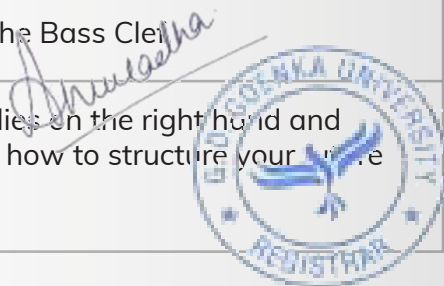

- A Keyboard or a Piano at home to learn on
- A notebook and pen to take notes

Course Outcomes:

On completion of the course, it is expected that students will be able to:

- CO1: Understand the fundamentals of the Piano and the language of Music
- CO2: Learning the different kinds of note values and the workings of rhythm
- CO3: Getting into some basic melodies using the C position
- CO4: Learning further note values and their application
- CO5: Introduction of the Left Hand
- CO6: Introduction of Rests and application of Left Hand to Right Hand melodies

Some students will be able to play the rhythms and melodies of basic songs and, more importantly, understand how to read Sheet Music, which potentially opens up their minds to any and all genres of music.

BAKERS BOTTEGA

COURSE CONTENTS

INTRODUCTION

Like many extra-curricular activities, cooking is a skill that kids can pick up at an early age. In today's world dominated by refined and fast foods, your young ones need to understand the joy of preparing something delicious from scratch. This course will cover fun cooking and baking activities for children and give them a preliminary understanding of various ingredients and processes. The students will be taken through a guided bake-along and engage in flameless cooking/baking, in addition to learning how to handle kitchen tools safely. With simple recipes and clear step-by-step instructions, watch as your tiny chefs cook up a storm!

Age Group: 7 years - 15 years

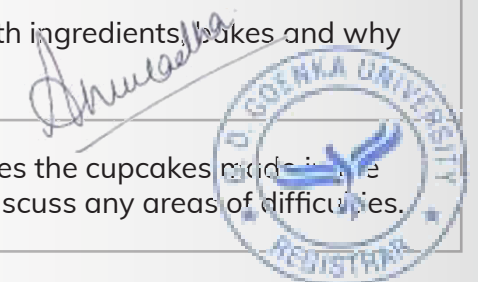

Prerequisites: They will be informed in each class about the ingredients to be used in the next class.

Course Outcomes:

On completion of the course, it is expected students will be able to:

- CO1: Understand the basics of baking and making desserts
- CO2: Will learn about the various tools used in baking and for desserts in the kitchen
- CO3: Will get a deeper insight into the ingredients used and their measurements
- CO4: Understand new and innovative techniques of icing and presenting
- CO5: Bake a small cake or make a dessert with basic ingredients
- CO6: Disaster management in the kitchen while cooking

Sessions	Sessions Topics
1	Understanding the ingredients: Taking a deeper look into the ingredients that go into baking a cake / making a dessert with their roles and functions
2	Tools and Substitutions: Understanding essential baking tools and useful substitutions.
3	Watch and bake: Watching the teacher bake cupcakes from scratch. Students will go through some recipes and get techniques for baking a basic cupcake or making a dessert.
4	Icings & Decorating: Learn some delicious icing recipes and how to ice a cupcake, useful tips and techniques on decorating.
5	Disaster Management: Taking a look at common issues with ingredients, bakes and why they happen and how to fix them.
6	Make the cupcakes ready to eat: Student ices and decorates the cupcakes made in the previous class. And finally, we summarize the course and discuss any areas of difficulties.

BOLLY-FUN WORKSHOP

INTRODUCTION

We are pleased to offer one of the most unique dance and fitness courses in your institution. In this course, students are going to learn many new, advanced Bollywood dance moves. You'll learn exactly how to pick up these moves step-by-step, and by the end of the course, master a brand new Bollywood routine that you can bust out at the next festival!

In addition to Choreography, our classes will include:

- Video Tutorials
- Customised Mashup
- Regular Feedback
- Individual Attention
- Student Showcase

Age Group: 7 years - 15 years

Prerequisites: Comfortable clothes: track pants, t-shirts, leggings, gym shorts, etc.

Course Outcomes:

CO1: Learn the basics of Bollywood dance moves

CO2: Master a 2-minute long dance routine

CO3: Develop the confidence to join in on the dance floor without feeling out-of-place

CO4: Learn how to master 1 move and turn it into 100 moves!

COURSE CONTENTS

We will begin with 15 minutes of Warm-up in each session to improve stamina, strength and flexibility.

Sessions	Session Topics
1	Basic foundation - grooves, step together, hop together, understand music rhythm system and song selection.
2	Learn Creative movement across the floor like turn, jumping and dipping. Choreography on a song that comprises above and a variety of steps.
3	Use of space, dance steps based on body isolations like shoulder, wrist, neck, chest and continuing with choreography.
4	Confidence building, improvisation, appreciation of the creative effort of other students and additional choreography.
5	Perfect the final dance sequence with proper body alignment and expressions - finishing of final choreography.
6	How to Dance to any music. Students will share their completed dance piece with everyone.

SKETCH LIKE A PRO

INTRODUCTION

Sketch Like A Pro: This course will cover the introductory techniques and styles involved in sketching. Shading is used traditionally in drawing to depict a range of darkness by applying media more densely or with a darker shade for darker areas, and less densely or with a lighter shade for lighter areas. Light patterns, i.e. objects having light and shaded areas, help create the illusion of depth on paper. In this course, students will learn to sketch with charcoal pencils, pencil colours and oil pastels.

Age Group: 7 years - 15 years

Prerequisites: Mentioned below alongside each activity/session

Course Outcomes:

On completion of the course, it is expected students will be able to:

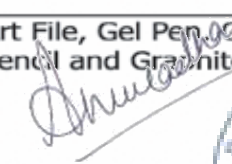

C01: This activity aims to teach students some major techniques and styles that will allow them to make any portrait of their choice, ideal for gifting or for decorative uses.

C02: Students can generate their own composition through various objects, followed by executing still lifes.

C03: Improvement in observational powers of their surroundings as well as general skillset.

COURSE CONTENTS

Session	Session Topic	Material Requirement
Session 1 & 2	SELF PORTRAIT: Students will learn to make their self-portrait and further explore the features, and study proportion and balance of tonal value in the art piece.	Charcoal, Soft Pastels, Fixative
Session 3 & 4	STILL LIFE: This activity teaches students to successfully sketch a still life, which is essential in any art practice. They will be taught how to make mostly inanimate subject matter, typically commonplace objects which are either natural (food, flowers, dead animals, plants, rocks, shells, etc.) or man-made (glasses, books, vases, jewellery, coins, pipes, etc.)	Colour Pencils
Session 5 & 6	OBSERVATIONAL DRAWING The activity teaches students to observe and imitate their surroundings. This exercise will improve their skill, proportion, perspective, figurative line length and the way to study body language.	Art File, Gel Pen, Charcoal Pencil and Graphite Pencil  

SUMMER HIP-HOPPERS

INTRODUCTION

Summer Hip-Hoppers: In this course, the instructor aims to introduce young minds to the exciting world of Hip-Hop and share dance education with a community that respects this art form. Discover the free-spirited form of Hip Hop dance with a concise overview of different movements such as B-Boying, Breaking, Popping and Locking. The course aims to create an environment conducive to learning and help the students improve their balance, coordination, flexibility, and agility. So sign up to get groovin' with the Summer Hip-Hoppers!

Age Group: 7 years - 15 years

Prerequisites: Comfortable Clothes: track pants, t-shirts, leggings, gym shorts, etc.

Course Outcomes:

During this course, students are expected to:

- CO1: Get an introduction to HIP-HOP Dance.
- CO2: Develop an understanding of the origin of Hip-Hop.
- CO3: Learn basic Hip-Hop Dance vocabulary.
- CO4 :Learn Hip-Hop Dance Warm-up exercises.
- CO5: Develop physical balance and coordination.
- CO6: Demonstrate non-locomotor and locomotor movements.
- CO7: Create movements in coordination with various tempos – slow, medium and fast.
- CO8: Move to internal and external rhythms.
- CO9: Respond to changes in rhythms, thereby developing the skills to express themselves through facial expressions and body movement.

COURSE CONTENTS

Sessions	Session Topics
1	1. Introduction and Familiarisation. 2. Introduction to Hip-Hop. 3. Hip-Hop warm up. 4. Basic Hip-Hop Footwork 5. Hip-Hop Grooves.
2	1. Hip-Hop Warm-up 2. Hip-Hop Footwork 3. Hip-Hop Isolations 4. Introducing Hip-Hop Choreography.
3	1. Introduction to Hip-Hop vocabulary. 2. Introduction to Old school Hip-Hop. 3. Hip-Hop Isolations. 4. Adding up on the Choreography.
4	1. Revising Hip-Hop footwork. 2. Revising Old school Hip-Hop 3. Revising Hip-Hop Grooves 4. Adding up on the Choreography.
5	1. Revising Hip-Hop Choreography 2. Introduction to New School Hip-Hop steps. 3. Revising Old School Hip-Hop Steps. 4. Adding up on the Choreography.
6	1. Revising Hip-Hop Isolations 2. Revising basic Hip-Hop Footwork 3. Hip-Hop Grooves 4. Revision of Hip-Hop vocabulary. 5. Revision of Old School Combos. 6. Hip-Hop Choreography

INTRODUCTION TO KATHAK

COURSE CONTENTS

Sessions	Sessions Topics
1	Kathak Fundamentals: Theory: Definition of Kathak and its 3 Gharanas Practical: Learning Footwork in 4 different Layas and also learning the Kram Laya Tihai
2	Theory: Learning the names of different Hand Movements. Practical: Learning different types of Hand Movements and also learning to coordinate them with foot movements at different speeds
3	Theory and Practical: Learning different kinds of Spins
4	Theory: Definition of Teen Taal and learning to write its notes. Practical: Learning to speak all the notes with the help of hands and also doing it along with footwork..
5	Theory: Learning to read and write different Tukdas (pieces) in Teen Taal. Practical: Learning to speak Tukdas with the help of hands and also show those Tukdas with hand movements and footwork.
6	Theory: Learning to read and write Tihais (Repetition of a Rhythmic Pattern) in Teen Taal and also writing a Kavit (a small poetic composition) in Teen Taal. Practical: Learning to show the Tihais with footwork and learning to dance a Kavit with the help of hand movements, footwork and expressions.

INTRODUCTION

In this course, we will teach the Basics of Kathak Dance by introducing students to intricate footwork, hand movements and breathtaking spins. Students will be taught theoretically and practically about different Layas (Tempos) and one basic Taal (Teen Taal). They will also be Taught Tukdas, Todas, Tihais and Kavit in that particular taal. Out of the three Kathak Gharanas - Lucknow, Jaipur and Banaras, the students will be taught in Lucknow Gharana. The classes will be divided into two categories. The first category will include students from ages 6-10 years, and they will be taught Beginner level Kathak. Whereas the second category will consist of students from ages 11-14, who will be taught a slightly more advanced level of Kathak while also covering the basics. All the students will be imparted with Theoretical and Practical knowledge. So if you want to learn the nuances of the most popular Indian Classical Dance form, then hurry and enrol yourself for our Kathak Summer Workshop.

Age Group: 7 years - 15 years
Prerequisites:
Dress Code: Suit or Kurti with leggings
Ghungroos: 25-50 Ghungroos in 1 string (optional)

Course Outcomes:

On completion of the course, it is expected students will be able to:

CO1: Have a Basic Sense of Laya (Tempo) and Taal (Rhythm)
CO2: Get The Basic Knowledge of Kathak Dance and its 3 Different Gharanas.
CO3: Learn intricate footwork and hand movements at 4 different speeds and will be able to co-ordinate both hand movements & footwork together
CO4: Learn One Basic Taal (Teen Taal) in 3 Different Layas (Tempos)
CO5: Learn a few Tukdas (pieces) in Teen Taal
CO6: Learn Tihais (repeating a rhythmic pattern) in Teen Taal
CO7: Learn Kavits(showing small poetic Compositions with the help of hand movements, footwork and expressions) in Teen Taal.

MUSIC PRODUCTION

COURSE CONTENTS

Sessions	Sessions Topics
1	Sound Fundamental: Understanding Room Sound & Mic Placement for vocal and acoustic instruments. Understanding how to record using a Phone or a professional Microphone.
2	Introduction to Music Production software (DAW), PreSonus Studio One 5 (free version available). Learning how to navigate the software and how to Add/Record/Edit/Arrange tracks. Learning how to add effects to tracks.
3	Learning what VSTs and Sample Libraries are and how to use them to create additional layers in your music. Understanding what a MIDI keyboard is. Understanding how to use the piano roll.
4	Understanding what EQ, Reverb, Compression & Delay are. Understanding the various parameters of these effects. Learning how to utilise them while mixing a song.
5	Learning how to produce a song from scratch: Recording/Producing, Layering, Editing and then finally Mixing. A song would be created from start to finish during the session. Students will be able to learn/understand the workflow involved in Music Production. VOLUNTARY PROJECT: Students will be tasked to create a small 4 bar loop using the tools they learnt during the course. Projects could be presented/sent personally during before the next session.
6	Steps and resources to continue learning Music Production. Doubt and Feedback session for the Project given in previous class.

INTRODUCTION

Music Production: Music-making is a creative process, and one shouldn't let technological know-how limit one's creativity. This course is a primer for anyone who has been curious about the world of Music Production but did not know where or how to start. Students will not only learn about the best practices to record vocals or various instruments, such as Guitar, Ukulele, Piano etc. but also learn how to use Music Production software, i.e., D.A.W. (PreSonus Studio One 5, free version available). From navigating the interface and adding virtual instruments (such as Synths, bass, drums, Violins etc.), to using effects like EQ, Reverb, Delay, compression etc., we will cover everything. By the end of the course, students would be able to record their vocals or instruments (both acoustic instruments & virtual ones) in the best possible manner and gain knowledge about the various concepts of mixing. They will also get a chance to put into practice all that they learn by recording/producing and mixing a short track, which could range from a 4-bar acoustic piece to a FULL FLEDGED BEAT. So, whether you're a singer/songwriter or an aspiring beat-maker, hop on and get started on your journey into this beautiful realm of creativity that is Music Production.

Age Group: 7 years - 15 years

Prerequisites:

- Functioning Laptop with minimum 4GB RAM
- A Smartphone that can record audio.

Course Outcomes:

On completion of the course, it is expected students will be able to:

- CO1: Understand the basics of sound and recording vocals/acoustic instruments.
- CO2: Understand components & basic navigation in a D.A.W (PreSonus Studio One)
- CO3: Record & add any type of virtual instruments (Synths, Pads, Drums, Strings etc.)
- CO4: Understand basic effects - EQ, Reverb, Compression & Delay
- CO5: Understand the basic workflow in Music Production
- CO6: Understand how to learn more about Music Production. Doubt & Feedbacks sessions for tracks created by students

No prior knowledge of Music Production or music theory is required.

CLICK AND TELL

INTRODUCTION

Click and Tell: Starting with phone cameras and moving on to a handheld DSLR, this course is designed to teach students the basics of photography and capture special moments using the devices available to them. Students will learn the framing and composition rules to weave stronger stories that will reflect in their photographs. They will also understand how different lighting conditions can affect the mood of a photograph. Finally, students will learn how to use a DSLR and grasp the basics of different shooting modes, types of systems, lenses, metering, exposure compensation, as well as understanding the three fundamental settings (ISO, Aperture & Shutter speed).

Age Group: 7 years - 15 years

Prerequisites: Any camera: phone, DSLR, digital camera.

Course Outcomes:

On completion of the course, it is expected that students will be able to:

- CO1: Understand rules of framing and composition in photography
- CO2: Understand phone photography
- CO3: Understand natural light and ways to use it in their photographs
- CO4: Understand how to use the manual mode in a DSLR
- CO5: Understand different types of systems and lenses
- CO6: Create photos that both beautiful and technically correct

COURSE CONTENTS

Sessions	Session Topics
1	Training the mind Spotting scenes to click, rules of framing & composition
2	Phone photography How to use different shooting modes on phone, angles & some tips and tricks of phone photography
3	Understand Natural light, shadows, and how lighting can change the mood of a photograph
4	Understanding DSLRs Grasping the basics of manual mode shooting, exposure triangle, and the purpose of ISO, Shutter Speed Aperture
5	Understanding different types of systems & lenses and how they are used in photography
6	How to practice and keep your photography skills sharp, creating a mood board, challenging yourself every day to click beautiful and technically correct photographs

HAVE A CRAFT-FUL SUMMER

COURSE CONTENTS

Session	Session Topic	Material Requirement
Session 1 & 2	MOSAIC ART: This activity is about making an artwork, tearing out small pieces of coloured paper, assembling them, using any glue and medium. Small pieces of paper can be taken out from various magazines, newspapers or coloured papers for this craft.	Fevicol, Acrylic Paint, Brush set and small pieces of coloured paper.
Session 3 & 4	DECORATIVE DESIGNER PLATE : In an activity based on mythology, students will be taught how to paint captivating traditional art, also known as Pichvaai art, onto glassware. With enriching and earthy colours, this activity will teach students about the detailing and design of making such an artwork.	Paint, Acrylic Colours and Brush
Session 5 & 6	ART WITH ARTIST: Students will get to explore the feeling of being in an artist's shoes. This activity will allow them to imitate a famous artist and try their hand at different art styles such as paintings inspired by Dali, Rizzi Homes, Kandinsky Tree, and Hundertwasser Cityscape.	Art File, Stationary, Pencil Colours/Poster Colours/ <u>Water Colours</u> /Oil Pastels (<u>ANY ONE</u>)

INTRODUCTION

Have a Craft-ful Summer: This course will cover a diverse range of (products of) human activities involving creative imagination to express technical proficiency, beauty, emotional power or conceptual ideas. Art and crafts describe a wide variety of activities that involve making things with one's own hands. Children, as well as adults, can enjoy such activities and creative projects fully regardless of their age. The activities include cutting-pasting, clay moulding, origami, making decorative items and much more.

Age Group: 7 years - 15 years

Prerequisites: Mentioned below alongside each activity / session

Course Outcomes:

- CO1: The final creation will be an aesthetic piece of mosaic art in a lively and bright colour palette. Students can make multiple scenarios such as animal painting, still life, landscape, or any figure of their choice.
- CO2: This activity will teach them how to nurture our traditional and cultural art. The artwork can also work as a decorative piece for the house.
- CO3: Students will learn how painting styles and techniques are performed by professional artists by imitating the process of making a painting. They will understand how to work like an artist and create an artwork that is stylised from the artist's perspective but will be their own.

HAVE A CRAFT-FUL SUMMER

INTRODUCTION

Have a Craft-ful Summer: This course will cover a diverse range of (products of) human activities involving creative imagination to express technical proficiency, beauty, emotional power or conceptual ideas. Art and crafts describe a wide variety of activities that involve making things with one's own hands. Children, as well as adults, can enjoy such activities and creative projects fully regardless of their age. They include cutting-pasting, clay moulding, origami, making decorative items and much more.

Age Group: 3 years - 6 years

Prerequisites:

- Mentioned below alongside each activity / session
- Parental supervision required

Course Outcomes:

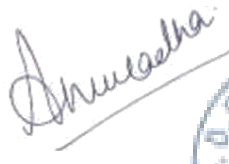

C01: The outcome creation will be an aesthetic piece of stamping art in a bright colour palette. Students will be taught how to make wrapping sheets, flower paintings and different design impressions.

C02: This activity will teach kids how to use different materials and make creative artworks, such as rainbow clouds and magic paintings.

C03: Students will learn how painting styles and techniques are performed by professional artists by imitating the process of making a painting. They will understand how to work like an artist and create an artwork that is stylised from the artist's perspective but will be their own.

COURSE CONTENTS

Session	Session Topic	Materials Required
Session 1 & 2	STAMPING ART: This activity involves making an artwork by incorporating household materials, fruits and vegetables. The main aim is to make an art piece out of materials readily available at home.	Day 1: Acrylic Colours/ Poster Colours, Brush set, Art File, 2 Forks. Day 2: Acrylic Colours/ Poster Colours, Brush set, Art File, discarded magazines or newspapers and citrus fruits (orange / lemon).
Session 3 & 4	FUN WITH ART: Students will get to experience fun learning activities consisting of tricks and techniques which will help them prepare beautiful art pieces.	Day 1: Cotton Balls, Poster Colours/Acrylic Colours, Fevicol, Earbuds and Paint Brush. Day 2: Oil Pastels, Art File, Watercolours and Paint Brush.
Session 5 & 6	ART WITH ARTIST: Students will get to explore the experience of being in an artist's shoes. This activity will give them an opportunity to imitate famous artists as well as try their hand at different art styles such as paintings inspired by Kandinsky Tree and Joan Miro's abstracts.	Art File, Stationary, 1 Black Sketch Pen, Pencil Colours/Poster Colours/Watercolours/Oil Pastels (ANY ONE)  

Mini Pastry Chefs: Like many extra-curricular activities, cooking is a skill that kids can pick up at an early age. In today's world dominated by refined and fast foods, your young ones need to understand the joy of preparing something delicious from scratch. This course will cover fun dessert-making activities for children in the age group of 3-6 years. The child will be taught how to handle kitchen tools safely. With simple flameless recipes and clear step-by-step instructions, watch as your tiny chefs cook up a storm!

Prerequisites: Since this course is meant for toddlers, all the main ingredients such as cupcakes, decorating material, kitchen tools (use silicon), muffins, icing tips should be ready and given to the child. Parental supervision is advised during the whole process, and the course would require constant hand/help from the parents for the kids.

On completion of the course, it is expected students will be able to:

By the end of the class, the child will enjoy assembling different ingredients to make something delicious to eat and understand the process of what goes into making something good.

Sessions	Session Topics
1	Introduction to dessert making tools and ingredients
2	Recipe 1: 3-ingredient chocolates
3	Recipe 2: Assembling a Pancake breakfast
4	Recipe 3: Decorating Muffins
5	Recipe 4: Decorating Cookies
6	Basic hygiene and working tips

Shrutha

A circular blue ink stamp. The outer ring contains the text "G. D. GOENKA UNIVERSITY" at the top and "REGISTRAR" at the bottom, separated by two small stars. In the center of the stamp is a stylized blue bird, possibly a phoenix or eagle, with its wings spread.

DANCING STORYTELLERS

INTRODUCTION

Dancing Storytellers: We are pleased to offer one of the most unique dance and fitness courses in your institution. This course promises to pack in loads of fun, and students will not only learn dance and drama but a variety of creative and imaginary movements - such as the mountain, river, birds, animals. They will learn how to improve their performance and dance-based storytelling skills, challenging their bodies and minds to develop physically and mentally.

In addition to Choreography, our classes will include:

- Video Tutorials
- Customised Mashup
- Regular Feedback
- Individual Attention
- Student Showcase

Age Group: 3 years - 6 years

Prerequisites: Comfortable clothes. Parental supervision is advised

Course Outcomes:

It is expected that students will be able to:

CO1: Learn basic Freestyle and Bollywood dance moves

CO2: Learn a 2 minute-long dance routine

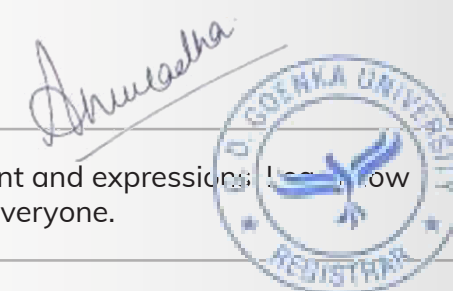

CO3: By the end of the course, students will be able to join in on the fun on the dance floor without looking out of place

COURSE CONTENTS

The first 10 minutes of every session will be a fun warm-up to improve stamina, strength and flexibility.

Sessions	Session Topics
1	Basic foundation: Grooves, hops in all directions, different poses- mouse, lion, mountain etc. and song selection for the dance routine.
2	Choreography on a song that comprises the above and building a storyline.
3	Use of space, dance steps based on body isolations - like shoulder, wrist, neck, chest. Adding onto choreography.
4	Confidence building, following the leader in dance format and additional choreography.
5	Finishing of final choreography.
6	Perfect the final dance sequence with proper body alignment and expressions. Use flow to dance to any music. Share completed dance piece with everyone.

FAQs

What format does the summer camp have?

Spanning for approximately 2 weeks, with 6 sessions of 50 minutes of specially curated courses, the summer camp will be conducted live on artGYAN's online platform.

Do I need to register on the artGYAN website before booking a summer camp course?

Yes, you will have to register on www.artGYAN.com and sign in with your registered email ID and password to book a course.

What will be the maximum group size of the class?

Each group will be of maximum 9 students with our unique customised layout, specially designed for personalised attention towards students taking the group class.

How many courses can I book?

As many as you like! You can book multiple courses as per your age group with different time slots.

Are there any prerequisites for taking the courses?

Each course has its own prerequisites, which can be found under the course tab. Apart from this, for the sessions, a steady internet connection (4G) is advisable.

Will I get my preferred day and time slot that I select while booking the course?

We hope to match your requirement! All the courses will be made available on a suitable day/time slot that is most preferred by the registered users.

How will I get to know about the class schedule for the course booked by me?

Booking confirmation details of all your six sessions (with dates, time, etc.) will be sent to you on your registered email ID.

What happens if the teacher is not available for a particular class?

Not to worry! You will be notified in case the session is cancelled due to non-availability of the teacher and it will be rescheduled.

Will the child receive certification after completing the course?

Every child will receive a University Certificate awarded by GD Goenka University (UGC-approved) on successful completion of the course.

After completing a particular summer course, how can I continue to learn that course in detail?

In case you want to further pursue your favourite art form, you can explore our plethora of courses and continue learning from the best! To book a course at artGYAN, visit www.artgyan.com
